

CALL FOR PAPERS

ICMVM 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMVM 2020 : International Conference on Machine Vision and Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machine Vision and Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Deep learning
- Deep vision
- 3D acquisition
- Embedded vision
- Pattern recognition
- Registration
- Computational photography
- Volume models and point clouds
- Natural user interface and gestures

- Vision computation challenges
- Mobile vision applications
- Vision in autonomous systems
- Medical applications
- Classification solutions for vision
- Image formation, optics and sensors
- Machine learning
- Video search and retrieval
