

CALL FOR PAPERS

ICOCA 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOCA 2020 : International Conference on Organic and Conventional Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic and Conventional Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Conventional farming
Conventional agriculture
Conventional farming and its problems
Organic and conventional farming
Comparing organic and conventional farms
Conventional farming methods and problems

Organic agriculture and food security
Conventional farming systems
Conventional agricultural systems
Modern agriculture and its problems
Organic agriculture and the global food supply
