

# CALL FOR PAPERS

**ICPBIE 2020**  
**Feb 10-11, 2020**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPBIE 2020 : International Conference on Plant-Bacterial Interaction and Ethylene is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant-Bacterial Interaction and Ethylene. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Plant-bacterial interactions:

from molecule to ecosystem

Plant growth-promoting bacteria  
(PGPB)

Biocontrol

Abiotic stress

Indoleacetic acid

Ethylene

Gibberellin

Siderophores

Nitrogen fixation

Volatile organic compounds
