

CALL FOR PAPERS

ICRSSGA 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRSSGA 2020 : International Conference on Remote Sensing Sensors for Geoscience Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Remote Sensing Sensors for Geoscience Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Expert systems and sensors in
structural engineering
Remote sensing applications
Geospatial engineering systems,
tools, and applications
Environmental engineering and
modeling
Sensors and tools in disaster
modeling and management
Image processing and computer
vision applications
Urban remote sensing applications

Earth observation and applications
Civil engineering surveying
Geotechnical analysis and design
Slope engineering
Numerical modeling in geotechnics
Real-time 3D simulation
