

# CALL FOR PAPERS

**ICSOCCTD 2020**  
**Feb 10-11, 2020**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSOCCTD 2020 : International Conference on Second-Order Cybernetics, Cybernetic Technology and Dynamics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Second-Order Cybernetics, Cybernetic Technology and Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Second-order cybernetics  
New cybernetics  
Cybernetic technology  
Reflection on first order  
cybernetics  
Technology  
New perspectives  
Applications  
Approach, theories and  
epistemology  
Organizational cybernetics  
Sociocybernetics  
Autonomy  
Self-consistency  
Self-referentiality

Learning and cognition  
Math and computation  
Management  
Design  
Second order cybernetics and  
constructivism  
Self-organizing capabilities of  
complex systems  
Artificial neural networks  
Living systems  
New robotic approaches  
Reflexive understanding  
Political communication  
Social dimensions of cognitive  
science  
Sustainable development
