

CALL FOR PAPERS

ICANM 2020
Feb 06-07, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANM 2020 : International Conference on Advances in Nanofiber Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Nanofiber Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanofiber materials

Technology innovations and trends

Characterization of nanofibers

Modeling and theoretical considerations

Structure and morphology of polymeric organic and inorganic nanofibers

Surface modification and functionalization of nanofibers

Nanofibers and functional nanoparticles

Nanofibers and other nanomaterials synergies

Multi-nano applications

Business development trends

Nanofiber industry challenges

Nanofiber cost benefit analysis, return on investment

Nanofibers and nanomaterials in products
