

CALL FOR PAPERS

ICATPE 2020
Feb 06-07, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATPE 2020 : International Conference on Advanced Traffic and Pavement Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Traffic and Pavement Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building structure and bridge engineering	Heating, gas supply, ventilation and air
Structural engineering	Carrier operation engineering
Roads and Railway Engineering	Concrete structures
Transportation Planning	Disaster prevention and mitigation
Civil Construction and Operation	Environment-friendly construction and development
Modern Logistics Systems and Supply Chain	Material quality and control
Automotive Engineering and Other Vehicle Tools	Surveying engineering
Intelligent Transportation Theory and Application	Safety and monitoring
Transportation Control and Information Technology	Monitoring and control of structures
Traffic and Pavement Engineering	Reliability and durability of structures
Sanitary and ground water engineering	Construction technology
Harbor engineering	Coastal engineering
Engineering management	Computer simulation and cad/cae
