

CALL FOR PAPERS

ICCCT 2020
Feb 06-07, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCT 2020 : International Conference on Clean Coal Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Clean Coal Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Clean coal technologies
Carbon capture and sequestration
Coal pollution mitigation
Energy and environmental benefits of clean coal technologies
Developments in carbon capture
High efficiency and flexible power plant
Coal gasification and conversion
Pollutant controls
Low-rank coal utilization

Biomass co-firing and co-gasification
Policy and financing
Fluidized-bed combustion
Integrated gasification combined cycle
Flue gas desulfurization
Low nitrogen oxide burners
Selective catalytic reduction
Electrostatic precipitators
