

# CALL FOR PAPERS

**ICLMED 2020**  
**Feb 06-07, 2020**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLMED 2020 : International Conference on Land Management and Economic Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Land Management and Economic Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Land Management and Economic Development  
Sustainable Land Management  
Capacity Building in Land Management  
Geo Informatics and Geodesy  
Land Tenure and Cadastral Infrastructures  
Combating Land Degradation  
Managing Urban Land  
Land Management and Mobilization  
GIS and Remote Sensing  
Land Degradation and Sustainable Soil Management  
Land degradation, remediation and reclamation  
Policies for soil health management in agriculture

Soil genesis and classification  
Geo-spatial/Remote Sensing technologies for soil management  
Soil and water conservation  
Carbon sequestration and management  
Soil and water pollution  
Wetland soils and climate change  
Nutrient management for soil sustainability, food security and human health  
Soil properties and modeling  
Deforestation, overgrazing and desertification  
Socio-economic aspects of sustainable land/soil management  
Impact of climate change on soils  
Sustainable Sloping Lands and Watershed Management
