

CALL FOR PAPERS

ICMSAS 2020
Feb 06-07, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSAS 2020 : International Conference on Mobile Systems, Applications and Services is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Systems, Applications and Services. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Experience with mobile applications, networks and systems
Innovative mobile and mobile sensing applications
Tools for building and measuring mobile systems
Wearable computing and innovative mobile devices
Software architectures for mobile devices
Data management for mobile applications
Infrastructure support for node mobility
System-level energy management for mobile devices
Operating systems for mobile devices

Support for mobile social networking and mobile Web
Security and privacy in mobile systems
Systems for location and context sensing and awareness
Mobile computing support for pervasive computing
Vehicular wireless systems
User interfaces and usability for mobile applications and systems
Personal-area networks and systems
Cyber foraging and resource discovery for mobile system
