

CALL FOR PAPERS

ICTETMRS 2020
Feb 13-14, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTETMRS 2020 : International Conference on Traffic Engineering, Traffic Management and Road Safety is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Traffic Engineering, Traffic Management and Road Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Traffic engineering

Safe and efficient traffic flow

Road geometry, sidewalks and crosswalks, cycling infrastructure, traffic signs, road surface markings and traffic lights

Traffic systems

Lane flow equation

Highway safety

Traffic engineering (transportation)

Access management

Bicycle transportation engineering

Traffic calming

Walkability

Traffic lighting and light pollution

Railroad engineering

Passenger rail terminology

Permanent way

Mechanical transport

Maglev trains

Port and harbor engineering

Coastal engineering

Pilotage

Just-in-time

Airport engineering

Airports, air traffic control, and airspace

Airport rescue fire response

Laws and regulations of air transport

Transportation planning
