

# CALL FOR PAPERS

**ICAMVP 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMVP 2020 : International Conference on Atmospheric Moisture and Vapor Pressure is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Atmospheric Moisture and Vapor Pressure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Atmospheric moisture  
Measures of atmospheric moisture  
Atmospheric moisture, precipitation and clouds  
Atmospheric moisture transports  
Sources of atmospheric moisture  
The impact of atmospheric moisture on the landscape  
Physical states of water in the atmosphere  
The hydrologic cycle  
The nature of water  
The water molecule  
Phase changes of water  
Water vapor and evaporation  
Temperature

Vapor pressure  
Saturation vapor pressure  
Precipitation formation mechanisms  
Precipitation measurement  
Evapotranspiration  
Measures of humidity  
Water vapor satellite images  
Temperature-relative humidity relationship  
Condensation  
Adiabatic processes  
Atmospheric stability  
Precipitation processes  
Atmospheric lifting and precipitation
