

CALL FOR PAPERS

ICCHSC 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCHSC 2020 : International Conference on Cell and Hematopoietic Stem Cell is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cell and Hematopoietic Stem Cell. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organisms and hematopoietic stem cell

Hematopoietic stem cells production and regulation in embryonic, adult and old organisms

Differences and similarities between hematopoietic stem cells throughout development in different animal models

Role of the microenvironment in hematopoietic stem cells function and maintenance at different stages of life

Functional and physical characteristics of hematopoietic stem cells

Nomenclature of hematopoietic colonies and lineages

Colony-forming units

Hematopoietic stem cells

repopulation kinetics

DNA damage and aging
