

CALL FOR PAPERS

ICCMC 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMC 2020 : International Conference on Computer Music and Composition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Music and Composition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer music
Music in a post-human world
Machine learning and intelligence
in music
Autonomous robotic music systems

Generative composition and live
performance systems
Networked collaboration in
composition and performance
Virtual performance spaces
