

CALL FOR PAPERS

ICCQS 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCQS 2020 : International Conference on Controlled Quantum Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Controlled Quantum Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Controlled Quantum Systems
Quantum Cryptography
Quantum Computing
CARS based bioimaging
Matter interferometers and
gyroscopes

Quantum sensing and quantum
metrology
Quantum imaging and quantum
lithography
Quantum mechanics and Quantum
computers
Applications for communications,
computing, military, healthcare,
and homeland security
