

# CALL FOR PAPERS

**ICCRTS 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRTS 2020 : International Conference on Cognitive Radio, Technology and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Radio, Technology and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive communications  
Cognitive radio and dynamic spectrum access  
Cognitive and autonomic  
Context-aware networks and cognitive cross-layer design  
Cognitive network design and optimization through distributed learning and reasoning

Cognitive technologies supporting software-defined radios, systems and networks  
Information/communications theory and network science  
Cognitive communications and networking  
Ontologies, languages, and knowledge representation for communications and networking  
Policy/economics and spectrum management techniques for cognitive networks
