

CALL FOR PAPERS

ICDGMA 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDGMA 2020 : International Conference on Differential Geometry and Matrix Algebra is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Differential Geometry and Matrix Algebra. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Basic Differential Calculus
Integration and Approximation
Introduction to Mathematical
Software
Interactions Between Mathematics
and Theoretical High-Energy
Physics
Mathematical Concepts and Proofs
Matrix Algebra with Applications
Matrices and Linear
Transformations
Models and Methods for
Optimization

Calculus in Three Dimensions
Introduction to Ordinary
Differential Equations
Differential Geometry of Curves and
Surfaces
Functions of a Complex Variable
Applied Harmonic Analysis
Computational Methods for
Fractional Dynamical Systems
Fractional Differential Equations
