

CALL FOR PAPERS

ICECMP 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECMP 2020 : International Conference on Experimental Condensed Matter Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experimental Condensed Matter Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Condensed matter physics
Condensed matter physics and
materials science
Structure of ordered and disordered
solids
Electronic properties
Electron correlations in quantum
materials
Superconductors
Spin electronics
Nano-materials
Quantum information processing

Organic molecular crystals
Photonic crystals
Biological physics
Molecular motors
Functional membrane proteins
DNA nanostructures
Nano-electronics
Nano-optics
