

# CALL FOR PAPERS

**ICFEFT 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFEFT 2020 : International Conference on Fashion Electronics and Fashionable Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fashion Electronics and Fashionable Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fashion electronics  
Fashion electronics, design,  
manufacturing, and applications  
Fashion technology and wearables  
Wearable technology and devices  
Fashionable technology  
Advanced electronic technologies  
for clothing and fashion design  
Fashion design  
History of fashion electronics  
Prototypes and applications of  
fashion electronics  
Wearable events and clothes  
Uses and applications of fashion  
electronics  
Modern technologies and innovatives  
in fashion

Government regulation and policies  
Improving clothing and fashion  
industry for fashion electronics  
Electronics fashion product  
development and management  
New developments in fabrics and  
textiles  
Machinery and equipment  
Current and emerging fashions and  
trends  
Design, pattern construction,  
cutting and garment manufacture  
Flexible solar panels, Power  
electronics, Wearable solar, and  
voltaic systems  
Fast fashion, Fashion industry, and  
Sewing machines  
Manufacturing process and new  
strategies for wearable devices  
Technology, production management  
and marketing  
Fiber textile manufacturing  
practices
