

CALL FOR PAPERS

ICGN 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGN 2020 : International Conference on Graphene and Nanotubes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Graphene and Nanotubes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Graphene
Electronic, optical, vibrational,
and structural properties of
graphene
Magnetotransport
Nanostructures and quantum
transport

Growth and characterization
Chemistry
Devices
Plasmonics and spintronics
