

# CALL FOR PAPERS

**ICHSETD 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSETD 2020 : International Conference on Health Systems Engineering and Technological Developments is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Health Systems Engineering and Technological Developments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Health systems engineering  
Health engineering  
Healthcare systems optimization  
Healthcare delivery, measurement  
and modeling  
Statistical and quantitative  
models  
Healthcare delivery systems  
Healthcare systems modeling  
Medical information  
Healthcare industry  
Health information systems  
Production and health care system  
Health care management operations  
Assessment of medical technologies

Patient-centered systems  
Roles in healthcare products,  
systems and delivery  
Engineering design and product  
development  
Regulatory science  
Risk science and failure analysis  
Economic analysis,  
reimbursement/payment models, and  
value engineering  
Information technology and  
software  
Public policy and management  
science  
Other applications: beyond  
healthcare-oriented areas  
General consumer product safety  
Digital health  
Transportation safety  
Environmental health
