

# CALL FOR PAPERS

**ICIAC 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIAC 2020 : International Conference on Interstitial Alloys and Compounds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Interstitial Alloys and Compounds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Interstitial alloys	Nitrides
Applications of interstitial alloys	Borides
Advances in Interstitial alloys	Silicides
Metal physics of interstitial alloys	Oxides
Interstitial solid solutions	Hydrides
Carbides	Mixed interstitial compounds
