

CALL FOR PAPERS

ICIIPWM 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIIPWM 2020 : International Conference on Intelligent Information Processing and Web Mining is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Information Processing and Web Mining. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent Information Processing
and Technology
Multi-agent systems
Automatic reasoning
Big data mining
Bioinformatics
Biomedicine
Business intelligence
Cloud computing
Cognitive Modeling
Computational intelligence
Computer vision
Constraints and satisfiability
Deep learning

Evolutionary computation
Game theory
Granular computing
Hybrid intelligence
Image processing
Information retrieval
Intelligence Science
Internet of things
Knowledge-based systems
Knowledge engineering
Knowledge representation
Logics and logic programming
Machine learning
