

CALL FOR PAPERS

ICIPCS 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIPCS 2020 : International Conference on Interdisciplinary Physics and Complex Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Interdisciplinary Physics and Complex Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Interdisciplinary physics
Astronomical techniques
Galaxies and the universe
High energy astrophysics
Probability, statistics and mathematics
Computational methods
Electricity and magnetism
Statistical and thermal physics
Quantum mechanics
Dynamical processes in biophysics
Aeromechanics, hydromechanics and acoustics
Atmospheric, oceanic and planetary physics
Astrophysics and cosmology

Atomic and molecular physics
Biological physics
Computational mechanics
Computational physics
Computer physics communications
Condensed matter and materials physics
Control theory and statistical physics
Controlled systems in physics
Electronic circuits and systems
Environmental physics
Experimental physics
Fluid dynamics
Group theory in physics
