

CALL FOR PAPERS

ICMCSSE 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCSSE 2020 : International Conference on Mathematical, Computational and Statistical Sciences and Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematical, Computational and Statistical Sciences and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Numerical Algorithms

Analytic methods

Approximation theory

Bayesian computing

Biological and medical applications

Biometry and Statistics

Computation in Complex Networks

Computational Biology and Medicine

Computational Chemistry

Computational Economics and Finance

Computational electrodynamics

Computational electromagnetics

Computational Engineering

Computational Finance

Computational fluid dynamics

Computational Geosciences and Meteorology

Computational Grids

Computational Mathematics

Computational Mechanics

Computational models

Computational Physics

Computational Statistics

Control theory and applications

Coupled problems

Data exploration and data mining

Dynamical systems
