

CALL FOR PAPERS

ICMDTE 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDTE 2020 : International Conference on Machine Dynamics in Textile Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machine Dynamics in Textile Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile engineering
Principles of textile engineering
Basic computer technologies
Technical drawing
Clothing machinery
Textile chemistry
Machine design process
Transmission technology
Quality management
Factory planning
Machine dynamics
Fashion design
Strength of materials

Dynamics
Industrial electronics
Textile physics
Clothing
Weaving
Knitting
Physical testing of textiles
Quality control in textiles
Control systems
Fabric design
Textile manufacturing
Textile manufacturing practices
Process control
