

CALL FOR PAPERS

ICMEEGID 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEEGID 2020 : International Conference on Molecular Epidemiology and Evolutionary Genetics of Infectious Diseases is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Epidemiology and Evolutionary Genetics of Infectious Diseases. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular Epidemiology and
Evolutionary Genetics of Infectious
Diseases

Genetics, genomics, proteomics,
population biology, mathematical
modeling and bioinformatics.

Submissions can deal with the host,
the pathogen, or the vector in case
of vector-borne diseases

Host + pathogen or pathogen +
vector (co-evolution)

All infectious models, including
those of veterinary or agronomical
relevance
Cancer and infectious diseases
