

# CALL FOR PAPERS

**ICMI 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMI 2020 : International Conference on Mental Imagery is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mental Imagery. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mental imagery  
Visual representation  
Visual mental imagery  
Visual perception  
Imagery in cognitive science  
The neural basis of mental imagery  
Shared neural systems in visual mental imagery and perception  
The role of early visual cortex in visual mental imagery  
Retinotopic organization of early visual cortex

Late visual areas  
Mental imagery of faces and places  
The imagery revival  
Mental imagery and associative learning  
Mnemonic effects of imagery  
Mental imagery and object recognition  
The spatial properties of imagery  
The analog-propositional debate  
Beyond pictures and propositions
