

CALL FOR PAPERS

ICMPTA 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPTA 2020 : International Conference on Marine Pharmacognosy: Trends and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Pharmacognosy: Trends and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine pharmacognosy
Marine natural products in drug
discovery
Novel antibiotics from marine
sources
Marine-derived bioactive
pharmaceuticals and their benefits
Marine organisms as sources of
natural products

Biological diversity in marine
environments
Chemical compound isolation
Compounds from marine sources in
clinical level
Marine organisms as a source of new
anticancer agents
