

CALL FOR PAPERS

ICRET 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRET 2020 : International Conference on Requirements Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Requirements Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Requirements engineering
Requirements elicitation, analysis, documentation, validation and verification
Requirements specification languages, methods, processes and tools
Requirements management, traceability, viewpoints, prioritization and negotiation
Modeling of requirements, goals and domains
Formal analysis and verification
Prototyping, simulation and animation

Evolution of requirements over time, product families and variability
Relating requirements to business goals, architecture and testing
Social, cultural, global, personal and cognitive factors
Domain-specific problems, experiences and solutions
Requirements in service-oriented environments
Software product management
