

# CALL FOR PAPERS

**ICSCEDC 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCEDC 2020 : International Conference on Sustainable Civil Engineering Design and Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Civil Engineering Design and Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil engineering design  
Civil engineering design software  
Computer aided design applications  
Design for climate change  
Design for minimizing and using  
construction and demolition waste  
Design and technologies for energy  
efficiency and conservation

Design for flexibility  
Design for security and  
sustainability  
Life cycle for civil engineering  
systems  
Innovation and optimization in  
structural design  
Data modeling, management, and  
mining
