

# CALL FOR PAPERS

**ICSEAC 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEAC 2020 : International Conference on Surface Engineering and Advanced Coatings is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Surface Engineering and Advanced Coatings. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering coatings  
Engineering coatings: design and application  
Surface engineering and advanced coatings  
Mechanisms of wear and corrosion  
Weld surfacing  
Thermal spray processes  
Electrodeposited coatings

Physical and chemical vapor deposition techniques  
Polymer coatings  
Finishing of surface coatings applied by welding and thermal spraying  
Quality in surfacing  
Safe working in surfacing  
Industrial applications of engineering coatings
