

# CALL FOR PAPERS

**ICSEM 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEM 2020 : International Conference on Surveying Engineering and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Surveying Engineering and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Surveying engineering  
Advances in surveying engineering  
Surveying engineering and applications  
Surveying and mapping  
Construction surveys  
Control surveys  
Photogrammetric mapping  
Engineering layout  
Deformation measurements

Precise alignment  
Boundary surveying  
Satellite positioning  
Terrestrial laser surveying  
Machine control  
3D transformations of coordinate systems  
Computer applications involving modeling  
Data structures and algorithms  
Cartographic representations
