

CALL FOR PAPERS

ICSMACI 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMACI 2020 : International Conference on Shape Memory Alloys for Civil Infrastructures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Shape Memory Alloys for Civil Infrastructures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Shape memory alloys and civil engineering
Applications of shape memory alloys in civil engineering structures
Structural engineering and shape memory alloys
The future of shape memory alloys
The impacts of shape memory alloys on civil engineering applications
Ferromagnetic shape memory alloys
Itinerant electron magnetism

Pre-martensite transformation
Superelasticity
Magneto-caloric effect
Thin shape memory alloy film
Magnetic field; stress
Spectroscopy
