

# CALL FOR PAPERS

**ICSPMD 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPMD 2020 : International Conference on Software Process, Methodologies and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Process, Methodologies and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software development	Programming paradigm
Methodologies	Reuse of solutions
Software development activities	Communication
Identification of need	Requirement gathering
Planning	Feasibility study
Designing	System analysis
Implementation, testing and documenting	Software design
Deployment and maintenance	Coding
View model	Testing
Business process and data modelling	Integration
Computer-aided software engineering	Implementation
Integrated development environment	Operation and maintenance
Modeling language	Software development paradigm
