

# CALL FOR PAPERS

**ICSTMA 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTMA 2020 : International Conference on Space Technology and Management Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Space Technology and Management Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space technology management and awareness  
Space science and technology roadmaps  
Technology transfers and spinoffs  
Space education and awareness  
Space technology applications and economic benefits

International space treaties and space policy  
National space laws and regulatory issues  
Industry-university collaboration  
Enabling the future - developing the space workforce  
Space culture: innovative approaches for public engagement in spaces
