

CALL FOR PAPERS

ICVAM 2020
Feb 17-18, 2020
Male, Maldives

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVAM 2020 : International Conference on Vitaminology and Allosteric Modulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vitaminology and Allosteric Modulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Vitaminology and lipidology

Clinical lipidology

The chemistry and function of the vitamins

Allosteric modulation

Catalysis of vitamins and lipids

Vitamins and lipids in cell membrane

Chromatography for vitaminology and lipidology

Cytologic applications of vitaminology and lipidology

Electron microscope

Enzymology, vitaminology and lipidology

Isotope dilution mass spectrometry

Metabolic pathways
