

# CALL FOR PAPERS

**ICWAIM 2020**  
**Feb 17-18, 2020**  
**Male, Maldives**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWAIM 2020 : International Conference on Web-Age Information Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web-Age Information Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced database and Web applications  
Big data management and analysis  
Caching and replication  
Cloud data mining  
Cloud computing  
Content management  
Crowdsourcing  
Data and information quality  
Data management on new hardware  
Data mining  
Data management for mobile and pervasive computing  
Data warehousing and OLAP  
Deep Web

Digital libraries  
Information retrieval  
Information extraction  
Information integration and heterogeneous systems  
Multimedia information systems  
P2P systems performance and benchmarking  
Parallel and distributed database systems  
Query processing and optimization  
Recommender systems  
Semantic Web and ontology  
Security, privacy, and trust  
Sensor networks  
Service-oriented computing
