

# CALL FOR PAPERS

**ICAG 2020**  
**Feb 03-04, 2020**  
**Melbourne, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAG 2020 : International Conference on Advances in Geoarchaeology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Geoarchaeology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geoarchaeology  
Advances in geoarchaeology  
Geoarchaeology and applications  
Influence of geology and climate on human culture  
Human settlement  
Integration of influences  
Archaeological site formation  
Physical and natural science  
Ancient cultures  
Geographic information systems

Human evolution  
Techniques used in geoarchaeology  
Column sampling  
Loss on ignition testing  
Magnetic susceptibility analysis  
Phosphate and orthophosphate content with spectrophotometry  
Particle size analysis  
Trace element geochemistry  
Clay mineralogy analysis  
Ostracod analysis
