

CALL FOR PAPERS

ICAURT 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAURT 2020 : International Conference on Advanced Underwater Repair Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Underwater Repair Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Offshore structures, materials and standards

Joining of underwater structures without the use of underwater welding

Underwater engineering processes for fabrication operations

Underwater welding technology

Manual hyperbaric welding techniques

Alternatives to saturation diving for deep water applications

Deep water arc welding processes

Alternatives to arc welding for deep water joining operations

Oceanography

Diving technology

Hyperbaric welding research techniques
