

CALL FOR PAPERS

ICCVCG 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCVCG 2020 : International Conference on Computer Vision and Computer Graphics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Vision and Computer Graphics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Model-based imaging and analysis
Image-based modeling and 3D reconstruction
Capture, processing, and display of 3D video
Image and video-based lighting and rendering
Computational photography
Time of flight, Kinect imaging

Model-based vision approaches
3D indexing and database retrieval
Object, body, and face tracking in image sequences
Model-based image and shape analysis
Model-based video compression techniques
