

CALL FOR PAPERS

ICPMSD 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMSD 2020 : International Conference on Piezoelectric Materials, Structures and Devices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Piezoelectric Materials, Structures and Devices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Piezoelectric materials
Piezoelectricity
Piezoelectric sensors and actuators
Application of piezoelectric materials
Energy harvesting using piezoelectric materials
Naturally occurring crystals
Synthetic crystals
Synthetic ceramics
Lead-free piezoceramics
Polymers
Organic nanostructures

Application of piezoelectric materials
High voltage and power sources
Sensors
Actuators
Frequency standard
Piezoelectric motors
Reduction of vibrations and noise
Infertility treatment
Surgery
Potential applications
