

CALL FOR PAPERS

ICSED 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSED 2020 : International Conference on Software Engineering and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Engineering and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software Engineering
Software Design Pattern
System Analysis and Design
E-business, e-commerce, and
e-government
Service Computing
Cloud Computing and Virtualization
Service Oriented Architecture
(SOA)
Web Services
Semantics Web
Computer Vision and Image
Visualization Information
Computer Graphics
Image Processing

Speech Recognition
Language Processing
Human Computer Interaction
Augmented Reality
Ubiquitous Computing
Sensor Networks
Spatial Information System
Geographical Information System
Health Information System and
Technology
Medical Image Analysis
Computational Biology and Bio
Informatics
Accounting Information Systems
Database Management System
