

CALL FOR PAPERS

ICMET 2020
Feb 06-07, 2020
Mumbai, India

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMET 2020 : International Conference on Micromechatronics Engineering and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Micromechatronics Engineering and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Micromechatronics

Advanced intelligent mechatronics
Micromechatronics: modeling,
analysis, and design
Design and analysis of
high-performance mechatronic
systems
Actuators
Automotive systems
Bioengineering
Data storage systems
Electronic packaging
Fault diagnosis
Human-machine interfaces
Industry applications
Information technology

Intelligent systems
Machine vision
Micro-electro-mechanical systems
Micro/nano technology
Adaptive control
Motion control
Vibration and noise control
Neural and fuzzy control
Opto-electronic systems
Optomechatronics
Energy systems
Efficient energy conversion
Power electronics
