

CALL FOR PAPERS

ICNBE 2020
Feb 06-07, 2020
Mumbai, India

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNBE 2020 : International Conference on Nano and Biomedical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nano and Biomedical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanobiomedical engineering	Understanding biological responses to implanted or injected materials
Nanobiomechanics	Computer simulation of nanostructures
Nanobioimaging	Nanomechanics
Nanobiodevices	Nanosurface and interface structures
Nanobiointervention	Nanosurface modifications
Nanoscience	Nanosurface chemistry
Nanostructures and their unique properties	Intelligent nanobehaviors
Fluorescent nanomaterials	Nanogenerators
Magnetic nanomaterials	Nanoself assembly
Smart nanomaterials for sensors and transducers	Nanobiomedicine
Quantum dots	Scintillation crystal materials for medical pet imaging devices
Novel nanodevices	Multimode imaging
Integrated multifunctional nanoparticles
