

CALL FOR PAPERS

ICQGMM 2020
Feb 06-07, 2020
Mumbai, India

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQGMM 2020 : International Conference on Quaternary Geology and Mass Movements is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quaternary Geology and Mass Movements. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quaternary geology
Glacial and quaternary geology
Geological processes during the quaternary
Climate
Quaternary glaciation
Last glacial period
Postglacial deposits
Early postglacial deposits
Glacial meltwater deposits
Glacial ice-laid deposits

Quaternary geology and paleoenvironments
Quaternary time frame
Quaternary climate and environments
Tectonic activity
Development of glaciers
Mass movements
Sedimentation pattern
Phase of ice decay
Quaternary geology maps
