

CALL FOR PAPERS

ICECSGP 2020
Feb 17-18, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECSGP 2020 : International Conference on Effects, Causes and Solutions of Groundwater Pollution is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Effects, Causes and Solutions of Groundwater Pollution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---|---|
| Groundwater pollution | Use and management of groundwater and surface water |
| Groundwater contamination | Groundwater policy and governance |
| Groundwater pollution and emerging environmental challenges | Sustainable groundwater governance |
| Sources and effects of groundwater pollution | Groundwater pumping technology |
| Regulations and policies to protect groundwater pollution | Political economy of groundwater governance |
| Groundwater quality and quality control technologies | Groundwater and climate change adaptation |
| Trends in groundwater pollution | |
