

# CALL FOR PAPERS

**ICCSIE 2020**  
**Feb 27-28, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSIE 2020 : International Conference on Computer Science and Information Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science and Information Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algorithms	Computer-Aided Design and Manufacturing
Artificial Intelligence and Expert Systems	Computer-Human Interface
Bioinformatics	Computing Practices & Applications
Business Technology Solutions	Control Systems and Robotics
Communication Technology	Control Technology
Computer and Information Security	Data Compression
Computer and Wireless Networks	Data Management
Computer Application	Data Warehousing/Data Mining
Computer Architecture and VLSI	Database Design and Development
Computer Graphics, Animation, Games	Database Technologies and Applications
Computer Information Systems	Decision Support Systems
Computer Science and Technology	e-Commerce
Computer Science Education	Emerging Programming Languages
