

CALL FOR PAPERS

ICBSPT 2020
Feb 27-28, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBSPT 2020 : International Conference on Border Security and Protection Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Border Security and Protection Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Border security and systems
Land and sea borders
Border and homeland security
Border controls and measures
Border surveillance techniques and systems
Border protection and management
Criminality and terrorist threats to borders
Maritime, port and coastal border security
Illegal migrants and movement
Safety and security at airports

Innovative technology in biometrics
Biometric identification, data capture and verification
Political developments
Major trends in immigration
Migration crisis
Migrants and refugee
Climate change and natural disasters
