

CALL FOR PAPERS

ICFBB 2020
Mar 05-06, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFBB 2020 : International Conference on Food Bioscience and Biochemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Bioscience and Biochemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food bioscience
Food microbiology
Novel food development
Food and biochemical engineering
Food resources science
Food and physiological functions
Molecular health science of food
Food hygiene and safety science
Food analysis

Biochemical, biophysical and biological properties of foods, ingredients, and components
Mechanism of functional foods and ingredients
Genetic, cellular and molecular biology germane to food production and processing
Foodomics: comprehensive studies involving genomics, proteomics, metabolomics, nutrigenomics and chemogenomics
Biomaterials for food-related systems
Biomaterials for food packaging, food analysis
Delivery of nutraceuticals and functional food additives
Application of novel technology to foods
